up "right & comment.)

S41/2 The "impassioned" individual is advocating a ~~radical~~ ^{radical, aggressive} course of action. He has ~~some~~ some support - though not unconditional - from one or two other people present. The rest of the body are moderately neutral to opposed in their regard for this course of action. The "impassioned" individual is a mildly pessimistic of the possibility for successful adoption of his ~~approves~~ ^{but believes} that at least some movement in his direction might be effected.

Site is one of several structures on land.

Structure is suggestive of comfortable office building - carpeted, quiet w/ rooms + corridors. ~~Structure~~ ^{more than 1 floor} may have a red roof.

Group of people inside meet. Dark clothes - they talk, discuss, consult together, confer. meetings are exclusive, confidential; one individual in group is articulate impassioned in advocating a specific course of action that is provocative, belligerent, inflexible. He has some qualifies support from one or two people present. The rest are neutral or oppose to U.S. position. Strong sentiment in the group that "anything is negotiable" as long as it doesn't put their side at a significant disadvantage. The empathetic individual doesn't want to give an inch. There's a prevalent sense of timidity + concern - almost fear - as if the participants are side of China high tides + living on the edge, & want to move toward a more stable, less tense level of existence.

(Adl matching) Bl suggested of Soviet side of SALT - not the negotiating team, but a body that has policy making powers somewhere far up the chain of command.

There are more than 20 & fewer than 30 - all males present. A sense of both military + civilian present, but

clearly defined between the two.

Room in ^{which} people meet has hard, shiny, floors w/ black, red, + brown pattern in; Approved For Release 2000/08/08 : CIA-RDP96-00789R000100150002-3

it may be angled upward. 19th century style. Wall light color, mostly white.
